Experience

PHF Software development, Consultancy & Hosting
Owner
January 1999 - Present

PH-F consultancy is specialized in creating web-based software in PHP,
Laravel, Vue, Javascript, jQuery, Mysql, Linux, Python, Classic ASP, etc.

Besides software development for short term and long term projects I take care
of (legacy) Software maintenance, (cloud) hosting and system administration.

see: http://www.ph-f.nl

Artifix ICT
Co-Owner Artifix ICT
May 2016 - Present

Propal'r
Co-Owner
October 2015 - Present

Propal'r is een 'deel- en ruilplatform'. We maken veel te weinig gebruik van
de vrienden om ons heen; de mensen die we vertrouwen. Tijd om dat te
veranderen!

Binnenkort online!

Convenient Fastguide / eGPO / Congredi
Software Architect / Technical Project leader
April 2009 - March 2019 (10 years)

Fastguide / eGPO makes healthcare software. I started as a lead developer for an electronic patient file in PHP/C#. Meanwhile setting up an OTAP environment, taking care for the deployments and restructuring all the development.

In time my role changed from lead-developer to software architect & technical project lead & DBA & system admin & scrum-master for a new application for communication, coordination and collaboration.
I am (end) responsible for the Webservers, eJabberd messenger, PHP-api, Native apps, angular web-application, the OTAP, releases and outsourced Romanian development team.
